SUMMARY

- Software engineer with good knowledge about algorithms, data structures and database systems
- Determine to be a world-class software engineer

EXPERIENCE

- **Worldquant LLC** Aug 2018 – Present
 - *Software Engineer*
 - Implementing a web-based interface to provide a better way to create ETL configuration of datasets for the business analyst team. Reducing the time to build the configuration, doing analyst and testing the configuration from several weeks to 3-5 days per dataset
 - Took care of all the RPC calls between components of the prototype of next-gen data infrastructure
 - Implemented a new transformation tool using Spark which converts raw data to the internal format much faster. It also reduces lots of manual work for my team
 - Frameworks/Tools: **Facebook Thrift, Spark, ReactJS, Mobx, Protobuf**
 - Languages: **Python, Scala, Javascript, C++**
- **Worldquant LLC** Aug 2017 – Jul 2018
 - *Web Developer*
 - Maintained and improved internal applications, which help Researchers and Portfolio Managers manage their tasks, strategies, and alphas easily
 - One of the internal webs can serve a few hundred API heavy-computing requests per second
 - Wrote an ORM-like layer which converts JSON parameters to SQL query
 - Implemented an in-house survey system based on LimeSurvey
 - Frameworks/Tools: **Apache HTTP Server, MySQL, ReactJS**
 - Languages: **Perl, Javascript**

ACHIEVEMENTS & AWARDS

- **Ranked 9th in Vietnam National Olympiad in Informatics** 2012
 - Competed individually to solve 6 algorithmic problems using Pascal

EDUCATION

- **The High School for Gifted Students** 2010 – 2012
 - *Focused on Programming, Algorithm and Data structures*
- **University of Engineering and Technology, VNU Hanoi** 2013 – 2017
 - *Bachelor of Computer Science; GPA: 3.36/4.0*
- **Self-learning courses**
 - CMU - Database systems – <https://15445.courses.cs.cmu.edu/>
 - Princeton University - Distributed System – <https://www.cs.princeton.edu/courses/archive/fall16/cos418>

SKILLS

- Languages: **Python, Perl, C++, Javascript**
- Libraries: **Thrift, MySQL, ReactJS, Mobx, Protobuf**
